## WORK EXPERIENCE

---

**Ross Stores | Menifee, CA**

*June 2022 - November 2022*

- Collaborated with team members to receive and process merchandise shipments, ensuring accuracy.
- Maintained an organized stockroom, following safety guidelines and restocking merchandise efficiently.

**24 Hour Home Care | Murrieta, CA**

*April 2022 - January 2025*

- Attained Adult and Pediatric First Aid/CPR/AED Certification; established a secure home care environment for a Down Syndrome care recipient in collaboration with parent/guardian.
- Led diverse activities for the care recipient, including social, educational, and physical engagements, promoting overall well-being.

**San Diego State University | San Diego, CA**

*October 2025 - Present*

- Maintained residence hall safety and security by monitoring building access, verifying identification, and reporting incidents in coordination with on-duty staff and security.
- Delivered excellent customer service to students, parents, and guests by answering inquiries, managing phone calls, and delivering campus resources with professionalism.

## PROJECTS

---

**Personal Portfolio Website | HTML, CSS, JavaScript**

[Github Repository](#)

- Developed a fully responsive website from scratch, using multiple languages to create structure, styling, and dynamic interactions for an engaging user experience.

**Email Client | Python**

[Github Repository](#)

- Designed and implemented a modular and scalable email client using QT Designer and the PyQt5 library, featuring a graphical user interface (GUI) for user authentication, email composition, and sending, while adhering to object-oriented programming principles.

**Wordle Game | C++**

[Github Repository](#)

- Programmed an engaging game that emulates Wordle, showcasing proficiency in application development and innovative interactive design, utilizing various data structures and algorithms.
